Laser Information

The laser transmitters of L-LAS-TB series comply with laser class 1 according to EN 60825-1. Under reasonably foreseeable conditions a class 1 laser is safe.
The reasonably foreseeable conditions are kept during specified normal operation.
The use of these laser transmitters therefore requires no additional protective measures.

The laser transmitters of L-LAS-TB series are supplied with an information label „CLASS 1 Laser Product“.

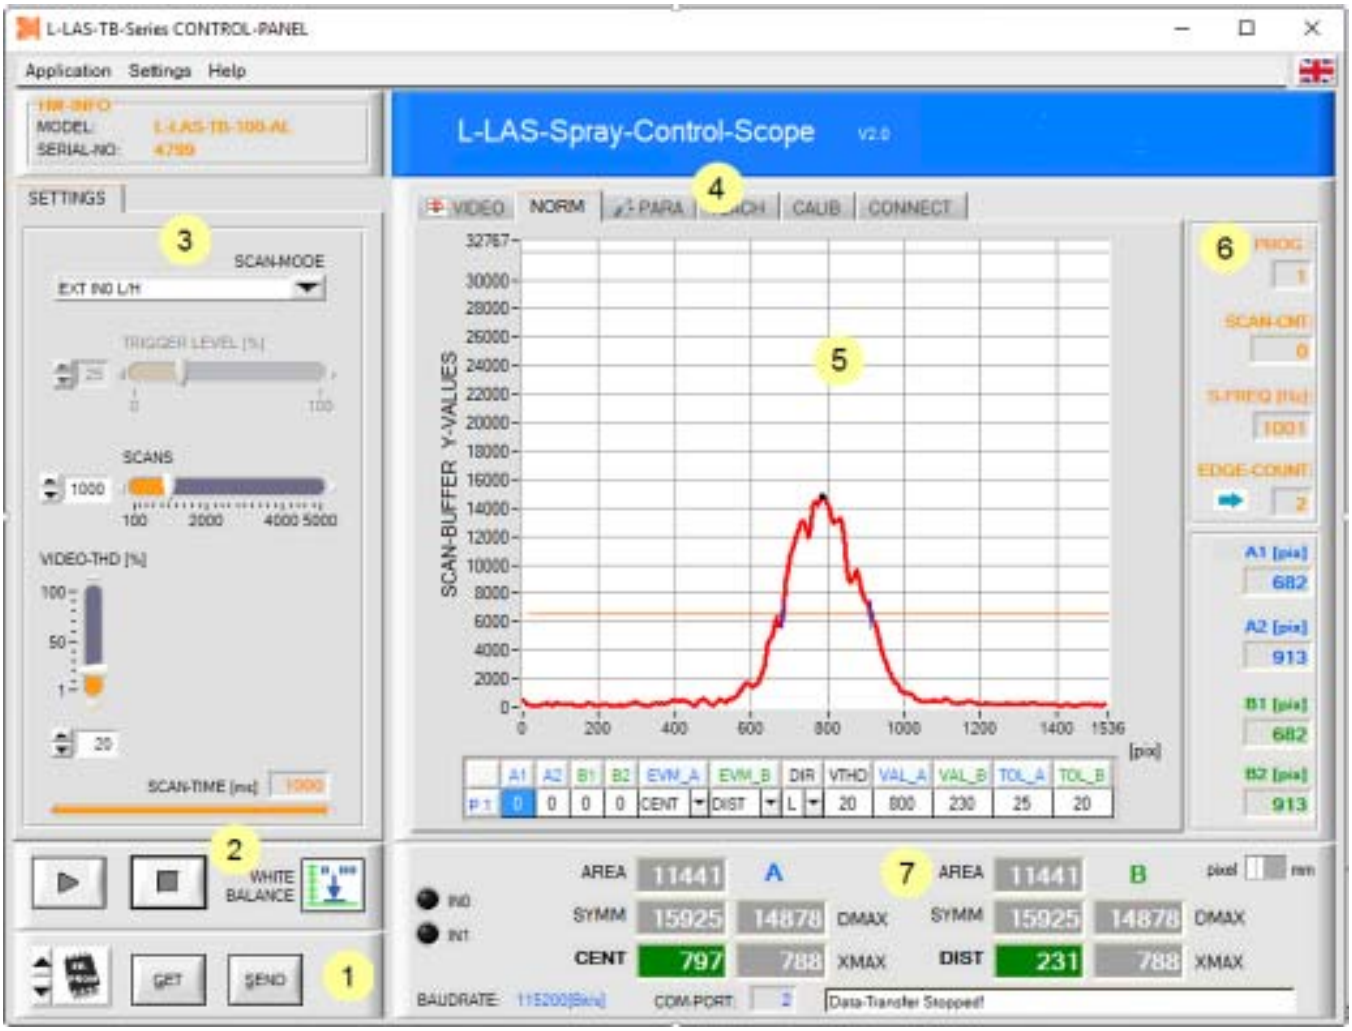
Class 1 Laser Product
IEC 60825-1: 2014
P<0.39 mW; λ=670 nm
COMPLIES WITH 21 CFR 1040.10 AND 1040.11 EXCEPT FOR CONFORMANCE WITH IEC 60825-1 ED. 3, AS DESCRIBED IN LASER NOTICE NO. 56, DATED MAY 8, 2019.

Parameterization

Windows® user interface:

(The current software version is available for download on our website.)

The L-LAS-TB-...-AL-SC sensor can be easily parameterised with the Windows® user interface L-LAS-Spray-Control-Scope (as of V2.0). For this purpose the sensor is connected to the PC with the serial interface cable cab-las4/PC (or cab-4/USB or cab-4/ETH). When parameterisation is finished, the PC can be disconnected again.



The L-LAS-Spray-Control-Scope user interface provides a great variety of functions:

- Visualization of measurement data in numeric and graphic output fields.
- Setting of the light source.
- Setting of the polarity of the digital switching outputs OUT0, OUT1, OUT2
- Selection of a suitable evaluation mode.
- Saving of parameters to the RAM, EEPROM memory of the control unit, or to a configuration file on the hard disk of the PC.

1 Function fields for sending / reading the setting parameters (parameter transfer).
2 START / STOP function fields for the RS232 data exchange with the sensor.
3 Presetting of current parameters at the sensor (trigger mode, evaluation threshold...).
4 Tab row to switch between different tab graphic windows.
5 Graphic output (display of the measured value over time, with teach value and tolerance band).
6 Numeric display elements (measuring frequency, number of edges, program number, ...).
7 Measured value display in [mm] or [pixel].
