

The background of the entire page is a nighttime cityscape. In the foreground, a multi-lane highway is visible with long-exposure light trails from cars, creating bright white and yellow streaks. To the left, a curved road also shows light trails. In the background, a dense urban skyline is visible with numerous skyscrapers, some of which are brightly lit. A network of white, glowing arcs is overlaid on the image, connecting various points across the cityscape, suggesting a global or interconnected network.

For measuring large distances and calculating object speed with total precision.
The LAM 300 sensors are your optimal tools if range and speed are crucial.

Technical specifications	LAM 300 series
Measurement performance	
Total range	From 0.5 m to 3,000 m
Range on reflector target board	From 30 m to 3,000 m
Range on natural surface, 80% reflectivity ¹	From 0.5 m to 300 m
Range on natural surface, 6% reflectivity ¹	from 0.5 m to 150 m
Accuracy	±60mm(@2kHz) ±20mm(@100Hz)
Repeatability	
Measured value resolution	1mm
Measurement frequency, max.	2 kHz
Laser	
Wavelength	905 nm (invisible, near-infrared)
Divergence	1.7 mrad
Class	Measurement: Laser Class 1, EN 60825-1:2014 Pilot: Laser Class 2, EN 60825-1:2014
Connectivity and I/O options	
Interface options	RS-232, RS-422 (max. 460.8Kbaud) Profibus DP-V0 Slave
Switching output	2× "high side", up to 0.2 A, short-circuit-proof, adjustable windowing
Analog output	From 4 mA to 20 mA
Trigger	1× in/out, up to 30 V DC, flank / delay adjustable
Measuring modes	Single, continuous, average, external trigger, near-field suppression, windowing
Connectors	12-pole M16 (Binder 423) 5-pole M12 B-encoded (Binder 766)
Display / Controls	LEDs
Power	
Power supply	From 10 V DC to 30 V DC
Power consumption	Standard: < 5 W Heating mode, 24 V DC: 11.5 W
Ambient conditions	
Operating temperature	From -40°C to +60°C
Storage temperature	From -40°C to +70°C
Humidity	From 15% to 90%, non-condensing
Integrated heating	Yes
Standards	
Shock / Vibration	DIN ISO 9022-3
Protection class	IP67
EMC	EN 61326-1
Physical	
Dimensions (L × W × H)	136 mm × 57 mm × 104 mm
Weight	Approx. 800 g

¹ Measurement range for naturally diffuse reflecting surfaces, depending on target reflectivity, stray light, and environmental conditions.

All dimensions in millimeter (mm)
